For the purpose of evaluation, the unit of measurement for the non- fuel commodity costs shall follow the prescribed unit of measurement in this Bidding Procedures for the fuel commodity costs.	Therma Visayas, Inc.	Please confirm that the non-fuel commodity costs listed in Schedule 17 - Financial Bid Form are for evaluation purposes only. During PSA implementation, the bidder will be allowed to recover its actual non-fuel commodity costs.		The mechanics for the Fuel Price (i.e., Fuel Commodity and Non-Fuel Commodity Costs) proposal and evaluation are revised. To propose the posting of Security Deposit in case the Buyer fails to pay in full its current power bill invoice.	<i>See answer to Q8.</i>

35.			Suggest to include provision of Change in Circumstances 1. If change in law, circumstances and other variables beyond the control of either Party has a material and adverse effect on its financial and economic returns, the affected Party shall give written notice to the other Party of such changes, the adverse impact thereof on its financial and economic returns and the proposed adjustment to the Capital Recovery Fee and/or other material conditions or components of this Agreement; and the Parties shall meet within ten (10) Days from receipt of the other Party's notice, to discuss and come to an agreement on an equitable and justifiable adjustment of the Capital Recovery Fee as may be reasonably acceptable to the Parties, with a view of substantially preserving both Party's financial and economic capability to perform its obligations under this Agreement. 2. Change in Circumstances shall include but not be limited to: a. For clarity	A new provision on Change of Law shall be included in the draft PSA <i>In the event that any applicable law, rule, or regulation comes into effect after the execution of this Agreement, or if any existing law, rule, or regulation (including any official interpretation thereof) relied upon by the Parties when entering into this Agreement is amended, modified, or repealed in a manner that materially impacts a Party's ability to perform its obligations under this Agreement, the affected Party shall notify the other Party of such change and the resulting adverse impact on its ability to fulfill its obligations. If the Parties cannot come to an agreement within thirty (30) Days from		<i>shall it serve as a basis for the termination of this Agreement.</i> <i>Rate deductions made by the ERC shall not be a valid ground for the termination of the PSA. 36.	Section 16 Liquidated Damages	Therma Visayas, Inc.	For LD in case of Buyer default, how much then is the amount payable by Buyer if PSA is terminated due to Buyer default?		The Winning Bidders and the Member ECs shall negotiate on the Liquidated Damages in case of default of Buyer resulting to the termination of the PSA.
37.	Section 17	Therma Visayas, Inc.	17.2 and 17.4 seem to conflict with each other. 17.2 provides for arbitration as the preferred way of settling disputes but 17.4 mentions court action. Propose to delete 17.488	~~If a Party shall institute a court action against the other Party, the venue for any legal action or proceeding with respect to this Agreement shall be exclusively in the proper courts of [City/Municipality of Buyer], unless such action otherwise falls within the jurisdiction of the ERC or other quasi-judicial or administrative tribunal.~~	Accepted.
38.	<u>Section 17</u> Arbitration	Therma Visayas, Inc. 39.	Section 19.4 Grounds for Pre-Termination of Contract	AP Renewables, Inc. (APRI)	Suggest to include change in law or change in circumstance on grounds		The causes to pre-terminate the contract shall be consistent with the prevailing regulations of the ERC
40.	Schedule 5 Protocol Reduction in Contract Capacity	Sual Power Inc.	We suggest that the reduction in Contract Capacity be pro-rated based on Contract Capacity among all winning bidders.	Considering that the resulting allocation of each Contract Capacity to each winning bidder in this CSP Aggregation is already a result of a least cost process.	Please note that the NEA-SBAC shall allow the Winning Bidders and the Member ECs to negotiate the terms of Schedule 5 of the draft PSA.
41.	Schedule 17	Sual Power Inc.	The representative raised a suggestion regarding the financial bid form in Schedule 17. The suggestion is to allow bidders to offer separate premiums or discounts per nominated fuel index.		Acceptable
42.	Schedule 17	Sual Power Inc.	In the financial bid form, specifically in the worksheet for bid security -- which is automatically linked to the SRF -- the bidder should not be allowed to manually input data to avoid the risk of mistakes. The required bid security level should be automatically calculated		Acceptable

43.	Contract Term	MPPCL	Concerning the duration of the contract, specifically if the target year is 2039 but the 15-year contract starts from the delivery date. If the ERC approval is delayed by a year, for example, would the 2039 deadline extend to 2040? Would this align with the DU's PSPP? Under the PSPP, there is a timeline requirement for conducting the next CSP due to demand projections. In most CSPs they've participated in, the deadline is fixed. However, based on the response, the deadline seems flexible. Their concern is whether the ERC and DOE would allow such flexibility. In the worst case, the delay could last up to two years, with no approval in sight		Following the prevailing ERC regulations, Physical PSAs have a maximum term of 15 years reckoned from the commencement of supply. Accordingly, the contract Term per Member EC would start from the delivery date, and adjustments on the expiration of the resulting PSA shall be made accordingly. Further, the PSPP for the following years of the Member ECs will reflect the CSP conducted by NEA. Once the resulting PSA from the CSP is approved by the ERC, the capacity of the Member ECs, specifically the bilateral contract quantity for the baseload demand, will be reflected in the respective PSPPs of the Member ECs.
44.	Schedule 17	TVI	On the non-fuel commodity cost row in the Standard Response Form, what should they do if their costs exceed the six available slots? Can this be accommodated for their other costs?		The Non-Fuel Commodity Cost row shall be revised to include fifteen (15) slots.
45.	Reduction in Contract Capacity Protocol	TLI	The most expensive supplier today may not remain the most expensive in the future, and reducing the contract solely for one supplier would be unfair. Proration would maintain balance, so if prices decrease, the effect is proportionate, and the price remains distributed across the GenCos. This would ensure that any reductions affect all suppliers equally, rather than burdening only one. They also mentioned that this shared approach would distribute uncertainty more fairly.		

46.	Schedule 17	APRI	Regarding the financial bid form, under the evaluation tab, clarification is sought on the unit for indicative energy—whether it is in kilowatt-hours or megawatt-hours, as it appears to be lower, as well as the basis for these numbers		This shall be corrected.

1.	Section 5. Performance Bond	GNPD	Pre-bid Conference: While the Seller is required to post a Performance Bond, the Seller shall also be granted to require the Buyer to submit a Security Deposit in case of payment default. LECA Response: This concern shall be submitted to the NEA-SBAC for deliberation. Additional Comments:	Disallowing bidders from imposing a security deposit may force them to include a premium to cover their risk. This could lead to higher bid offers, ultimately affecting all the Buyers. However, if a security deposit is allowed, it could result in a more favorable rate that applies for the entire contract duration.	A new provision on Security Deposit shall be included in the Transaction Documents.

			such reductions shall take place. Any such reduction shall be limited to an amount that will allow the relevant Member EC to comply with its obligation to supply electricity in the least cost manner to its captive market. <u>the Buyer shall meet with the Seller to engage in reasonably good faith discussions to reach an amicable solution to the potential reduction of Contracted Capacity, including but not limited to, (i) a review of the Buyer's projected demand growth; and (ii) a mutual determination by the Parties that such reduction shall not compromise the Buyer's future supply requirements. If both Parties determine thereafter that there is an unavoidable need to reduce the Contracted Capacity, the Buyer shall request the Seller in writing of its final decision to reduce the Contracted Capacity at least one hundred eighty (180) days or agreed number of days of the parties based on governmental issuances prior to the Buyer's proposed effectivity for the reduction, without prejudice to other risk mitigation arrangements which the Parties may agree upon.</u> <u>Notwithstanding any other provision to the contrary, the Parties hereby agree</u>

			<u><i>that any reduction to the Contracted Capacity under this Section 3.7 shall be made in proportion to the respective contracted capacities of the Buyer with its other suppliers</i></u>		
4.	Sec. 9.2.5 Scheduled Outages	GNPD	As explained in the last pre-bid conference, scheduled outage requires approval from NGCP and DOE. In this regard, we would like to request your consideration to the proposed revised provision below to align with the DOE DC 2020-02-0004. <u>Suggested Amendment:</u> 9.2.5 The Buyer, sixty (60) days prior to the scheduled outage, may require the Seller to reschedule a Scheduled Outage through written notice, subject to NGCP and DOE approval.		The draft PSA shall be revised as follows: <i>Every October of each year, the Seller shall inform the Buyer of its NGCP-approved Scheduled Outages, ensuring that these are aligned with the most recent DOE-approved Grid Operating and Maintenance Program.</i> <i>The Seller shall not be permitted to conduct any plant-level Scheduled Outages or Preventive Maintenance Schedule (“PMS”) on its Facility's units during the months of April, May, and June of any given year.</i>
5.	Section 10 Compensation, Payment, and Billing New provision: Interest for Late Payment	TLI	We suggest to insert provision on Interest for Late Payment: — If any amount payable by the Buyer is not paid on Due Date: a.) The amount unpaid shall bear a daily interest, at a rate of twelve percent		Proposed revision is not accepted.

			(12%) per annum, computed on a 360-day basis, until payment by the Buyer; b.) If any invoice from the Seller is overdue for more than six (6) months, the Buyer shall pay an additional penalty of one percent (1%) per month for every additional month of delay beyond six (6) months; and c.) Seller has the right to immediately suspend the delivery of electricity and declare Basic Energy Charges for electricity supplied but not invoiced immediately due and payable, whereupon Buyer shall pay such Basic Energy Charges immediately upon delivery by Seller of the corresponding invoice to Buyer. d.) For clarity, any payment made by Buyer under this Agreement shall be applied first against any interest or penalties imposed under this Agreement, and owing to Seller, before it is applied against the principal amount on which the interest or penalty was derived from.		
6.	Late Payment Interest or Penalty	APRI	Request provision of penalty for late payments	We noticed that there is currently no penalty for customers in the event of late payments. To ensure the security of the winning bidder, we	Proposed revision is not accepted.

				recommend including a section/article in the PSA that addresses late fees.	
7.	Sec. 10 Compensation, Payment, And Billing	GNPD	In case the Buyer failed to pay their power bill on time, we would like to propose the revision below: <u>Suggested Amendment:</u> 10.3 Payments. Each Seller Invoice shall be due and payable not later than thirty (30) Days from receipt of the Seller Invoice by the Buyer (“Due Date”). If the last day of the Due Date falls on a Saturday, Sunday, legal/regular holiday or special holiday declared by the applicable local government unit where a Party holds principal office, then payment shall be made on the immediately succeeding Working Day. <u>Any Amount Due not paid on the last day of the Payment Period shall bear late payment interest equivalent to 2% per month, where a fraction of a month to be considered one month.</u>		Proposed revision is not accepted.

8.	Sec. 14 Force Majeure	GNPD	14.1.4 Other Events of Force Majeure (Force Majeure - Transmission System) We would like to request to include Market Intervention/ Market Suspension	The market (IEMOP) interventions is beyond the Seller's control. It's the IEMOP to decide the dispatch and pricing whether it is administrative price or price substitution, which impacts the Seller to fulfill its obligation to the Buyer.	Proposed revision is not accepted.
9.	Section 16 Liquidated Damages (LD) 16.3 in relation to 16.4	TVI	In case of default by Buyer resulting in termination of the PSA, Buyer shall pay to Seller an amount equivalent to the average generation charge for the past twelve (12) months multiplied by the number of months remaining up to the end of the term of the PSA.	Suggest to include provision on formula for LD in case the contract is terminated due to Buyer's Default. Remedy to get a termination payment if PSA is terminated due to fault of a party should be mutual	The Winning Bidders and the Member ECs shall negotiate on the Liquidated Damages in case of default of Buyer resulting to the termination of the PSA.
10.	Section 21 Miscellaneous Provision New Provision: Security Deposit	TLI	We propose to include provision on Security Deposit — Security Deposit Pre-condition for Security Deposit. There shall be no security deposit		

			requirement on the part of the Buyer upon commencement of delivery. However, the Seller shall have the right to require the Buyer to post the Security Deposit when the Buyer fails to make any payment in full under this Agreement when due and payable. Amount. The Security Deposit shall be equivalent to one hundred percent (100%) of the highest Monthly Power Bill for the preceding three (3) months. Form. The Security Deposit shall be in the form of cash or irrevocable standby letter of credit, with a validity period of one (1) year, issued by banks or security companies acceptable to the Seller which shall be posted within one (1) month from the Buyer's receipt of a written notice thereof from the Seller. Suspension of Security Deposit. The Seller agrees to suspend the requirement for Security Deposit if the Buyer consistently paid its Monthly Power Bill after six (6) consecutive months following the posting of Security Deposit as stated in Section 11.1.1.		
--	--	--	--	--	--

			Replenishment. If at any time (and from time to time), the Security Deposit is drawn partially or fully by the Seller, the Buyer shall replenish or replace the Security Deposit not later than thirty (30) calendar days from notice by the Seller. In case the Buyer fails to replenish the Security Deposit within the required period, Seller shall be entitled to impose the interest and any other penalties available to it under this Agreement for any unpaid amount that the Security Deposit is unable to cover.		
11.	General Comment to Draft PSA	GNPD	Suggested to Include this Provision: <u>Longstop Date:</u> Longstop Date means the date falling two hundred seventy (270) calendar days after the date of submission to the ERC by EC and Power Supplier of their Joint ERC Application. If the ERC Approval has not occurred on or before the Longstop Date, then Power Supplier has the right to terminate this Agreement by giving written notice of such termination to the other Party.	Added suggestion to add a longstop date definition as aligned with the ERC's 270 calendar days for quasi-judicial cases under the EVOSS Act to issue an action from the submission of a valid application.	Proposed revision is not accepted.
